# At Home Pet Network

*"A home away  
from home for  
your pet."*

A little bit about  
At Home  
Pet Network...

## Our Philosophy

We know that every guest who comes to our home is not just a pet; each one is also a family member. Therefore, we consider it our responsibility to provide the best care possible for your pet.

We know it can be stressful for both you and your pet while you are separated. Therefore we use two proprietary systems to deal with that stress.

First, we use MyPetReport.com to stay in daily contact with you anywhere in the world. With daily reports and streaming video, you can be a part of their day even if you're a thousand miles away.

Second, we use our Pet Stress Management System to help our guests deal with the initial stress of being away from you - their loving owner.

## Our Qualifications

- Certified In Pet Care
- Mandatory Monthly Education
- Background-Checked
- Insured

## Before You Board...

### Trial Night Sleep Over

*Just like their comfort is important to you,  
your comfort is important to us.*

For the sake of your comfort and ours, we require a trial night stay - compliments of the house. Yep...no charges, no fees. Just a quick sleep over to see how your pet does away for the night.

## Our Communication

### MyPetReport.com

Our first priority is your pet's comfort and safety. Our second priority is YOU.

By using MyPetReport.com, you can have daily contact with us and read your pet's daily progress.

You can also view updated pictures and watch streaming video of your pet enjoying its stay.

Miles away but  
only a click away...

## Our Care

## Pet Stress Management System

### Behavior

- Panting/Yawning
- Lip Licking
- Tail Movement
- Eye Position

- Urine
- Extreme weight loss

### Environment

- Cleanliness and Sanitation
- Consistent routine and schedule
- Soothing Music
- Soothing Communication
- Water Filtration
- Familiar Friend

To give you a little insight into our system of care for your pet, we have included a snap shot of our Pet Stress Management System™.

This system is focused on 3 primary areas (biology, behavior, and environment) with the ultimate goal of reducing our guests' stress and increasing their comfort.

With daily monitoring of these key areas, we can assess and catch any problems that might be developing and act quickly to remedy them.
